

ADOPTING A DISC GOLF HOLE

Welcome to the future of disc golf, a future where golfers take the responsibility and pride in the sport of disc golf and the beautiful courses where they play. Adopting a hole gives you a chance to make a difference. It is more than just a benefit to the course, but also your being a good representative for all disc golfers and a benefactor to the community. Through your care and hard work, you can assist in making our courses some of the most progressive in the country.

The fee for adopting your hole is \$10.00, which is due yearly. Upon payment, your name will be posted on the tee sign for the hole you choose to adopt. The responsibilities for your hole include general maintenance, trash and debris clean-up and weed-eating, if necessary. You are responsible for keeping the club updated on the condition of your hole and to immediately notify the club- thru any of the board members- of any problems or concerns. All work on the course is coordinated by the club's course facilitator (see Board of Directors list for current name) and all major changes must be authorized by the club and/or the parks administration. Special attention must also be given prior to tournaments and special events at the courses. You will receive an e-mail prior to all such functions.

CONGRATULATIONS AND THANK-YOU FOR ADOPTING YOUR DISC GOLF HOLE # _____

@ Western Gateway Park, Penn Valley or Condon Park, Grass Valley (circle one)
